Please let this run a while .. until is starts cooking.
It gives the historical background on the middle-east conflict.

Note that, when comparing the number of Jews in various places, Jews are only 2% of the population or so.

Included in the film, is that almost all Jews have an origin, not in Palestrina, but south Russia.

The Holocaust-Hoax is of course missing. Nevertheless, inventing the Holocaust changed the scene, allowing much of what we see today, such an unlimited U.S. military support to Israel.

Even if it is a part of this film in many places, understanding the Money Hoax (see on this site) is also an important part.

Indirectly it also covers the 911/Terrorist hoax. You will see how it works.

The film is iso format. You can easy "Rip" to mkv, for your USB-TV using DVD Fab:
DVD Fab
Select MKV using direct stream copy, that one is good for most DVD/iso disks. Your TV have no problem decoding the stream, it is ordinary MP2.
