TV\Crowd_on_street_DR1_B2.flv

A crowd may be a multi-layer composite. See the "Syntetic 911" in "Longintro" for an example taken from the Naudet brothers "911" film.

911_clips_collection_to_tufavideo_net.torrent:
TV\North_Parking_WTC1_Antennaless_DR1_B9.flv

The WTC1 antenna -- about 100m high, with measurement from top of 450m WTC1 -- cannot be seen in video. Who snatched it?

911_clips_collection_to_tufavideo_net.torrent:
TV\From_NNE_Street_Burning_WTC1_DR1_B12.flv

A street shot and the camera pan upwards.
Note that it is possible to cut the video, and insert the burning Tower on top of the real one. This cannot be any amateur-shot. Back in 2001, only professional equipment could take this sharp and clear picture.

Never forget the time-frame! It is only 15 min between the "planes". TV (is sad to according to official sources, that is) to release the news 6 minutes after the "first strike". Our professional camera man was real quick capturing this shot -- .

911_clips_collection_to_tufavideo_net.torrent:
TV\Car_Drive_Layers_still_pic_WTC_DR1_B22.flv

Car drive towards the burning Towers. It looks real and authentic ... a while .... and then you see; is the Towers a still picture? The smoke seems stuck, and don't move.

911_clips_collection_to_tufavideo_net.torrent:
TV\WTC1_Smoke_addon_DR1_B25.flv

Spot the eternal bird-layer.
(Second part, not on still picture) The smoke from WTC1 looks like glued on. The windows in top of tower should be intact. From where !?! comes all the smoke ?

911_clips_collection_to_tufavideo_net.torrent:
TV\Patriotic_towers_with_flag_DR1_B29.flv

Street level shot with fire-men. Includes an American flag!!
This look like Evan Fairbanks angle.

911_clips_collection_to_tufavideo_net.torrent:
TV\Pan_Hudson_sunnyday_DR1_B31.flv

Actors on the New Jersey side of the Hudson river. "I am STUNNED!" then comes a pan and a zoom in on the Towers. Note that the lens has dirt on it. Why? We are very far away from the Towers -- and also on the right side of the wind direction. Yes! Note that the Dirt is in focus in the picture! How can the dirt on the lens be in focus ??!?
Ohh!! The DirtSpot, that is in the sun, as the lens is in the sun, it actually go in the shadow when the spot comes into the shadow of the Tower !?!?? And then the DirtSpot dissolves into the smoke? From the Tower?? 1.6km away??

Please come and help the video-fakers! They do really want to stop now!
(I am STUNNED!!)

911_clips_collection_to_tufavideo_net.torrent:
TV\Train_view_of_towers_DR1_B32.flv

This Train-View include zoom-level cuts, that is just fantastic. As usual, our camera-man have no problem keeping Towers in frame, even at high zoom. Note sound track.
"It is a Plane Crash" "It hit Both Towers" "Due to a plane crash at Word Trade Centre.."

911_clips_collection_to_tufavideo_net.torrent:
From_internet\groundlev_closeup_wtc2_dust.avi

This is the cut where a "reporter" is running with his camera pointing backwards.
Do one of these yourself, and compare! See if you can figure out what is wrong with the clip.

:welcome:
911_clips_collection_to_tufavideo_net.torrent:
From_internet\The_911_Solution.flv

This is the famous clip where The Story is inserted into the TV immediately in the beginning; no investigation of any kind is needed.
