This is an old upload. The section, where various statements made by "eyewitnesses" is used to argue a point, don't work any more. All such statements, and likely also including the news-studio part, is likely a PRE-RECORDED hoax to create material for all the forthcoming "conspiracies", that where to surface later.

As usual, keep the good stuff, and kindly disregard the bad. Many super takes of various crashes, for your comparison.

... and it is not really that bad. Due to style of sticking to facts, this will uphold comparatively better in future, when we know more. I know Genghis 6199 had trouble with the no flying object.
