Unfortunately, the input quality is lacking in many respects:
- Dropouts
- Lagging desync music
- Distorsion and background noise
- All input is mono

So, I ask you to forgive that the echo is so high; it is needed to camoflage the audio problems.

... Can we have a link to the video?

The numbers, of the MP3:s refer to position in the editor. It is for reference only. Original song names are currently unknown.
