David Cole is an atheist Jew, born in Canada, who is extremely knowledgeable.

This young Jewish Revisionist filmmaker came to the defense of Ernst Z  ndel when Z  ndel needed defending. Subsequently, Z  ndel and Cole made a film in Auschwitz, with David Cole pointing out all the things wrong with that theme park of hate against Germans.

Later yet, Cole came to Canada to lecture to large audiences on his Revisionist findings in Auschwitz, together with David Irving. He also appeared with Z  ndel in Munich, Germany, spreading Revisionism right under the watchful eyes of the German political police.

In a vicious letter posted on the Internet, the Jewish Defense League threatened Cole's life. Emotionally fragile and torn between his conscience and family loyalties, as well as filial devotion, he could not withstand the pressure and recanted with an abject apology to his tribesmen and tormentors. Every serious Revisionist understands that this act of recantation was coerced and may have bought David his very survival. He later became a victim of the JDL, and was physically beaten for making this video you are about to download.

The building being touted as a homicidal gas-chamber at Auschwitz, is no such thing, and even has a gigantic, completely unattached 40+ foot chimney that was built behind it after the war, among many other modifications, and lies thereof.

David Cole catches the Auschwitz theme-park staff peddling lies about the Holocaust, some of which Dr. Piper admits when confronted, though he continues to lie about the building's previous history, as there are no Zyklon-B blue-stains on the walls, and further testing proved it. He also tells the genocidal soap story.

The delousing of clothes and bedding, and the shaving of heads, was necessary to prevent the spread of lice, which was a huge problem in the eventually overcrowded, ever-expanding work-camp system. Lice are like fleas, they bite to drink blood, which spread the deadly disease typhus everywhere. Zyklon-B was used to save lives.

"Even though it is said that Jewish children were killed immediately, both Anne Frank, and her

sister, were sent to Auschwitz, and survived, later being transferred to the Bergen-Belsen camp, where they are said to have died from typhus."

The piles of emaciated corpses you see in war-propaganda films died mostly of starvation and disease, because that's what happens when war gets out of control, without exception.

It's the pale horse.
