Nazi Shrunk Heads

DVD (MP2) - approx. 25 mins
Video MP2 6500kbps (max) 4800kbps (average)
Audio AC3 2-channel 160kbps

Explains how the media and politicians manipulate the masses to be pro-war by using myths. Discusses not only the holocaust myth, but also myths promoting Western aggression toward Africa and the Middle East. Compares assertions made at the Nuremberg Trial in the mid 1940s, to assertions made about Idi Amin in the 1970s. 25 minutes.

The video maker advocates kindness and good vibes toward all Jewish people. And the video maker does not have the intention of reviving Hitler or Nazism. Hitler was a militarist and this video is anti-militarist. Having said that, the maker of this video also believes that the holocaust is a giant myth. A myth that reverberates today into the promotion of war. This video is about how the media and politicians manipulate the gullible American public for pro-war purposes.

This video has considerable overlap with new video
"Buchenwald: A Dumb Dumb Portrayal of Evil" which among other things describes
Eisenhower's role in the holocaust hoax.

This is "version 2" of Nazi Shrunk Heads. Originally released in April 2007, it was re-worked and re-released in August 2008.
